Dr. John Zavaletta  
6750 N. MacArthur  
Suite 304  
Irving, Texas

Dear Dr. Zavaletta, I just wanted to take a moment to write and say thank you so very much for giving me back QUALITY OF LIFE! I do not believe that my reading your article and coming to your office was a coincidence; I believe in divine appointments and meeting you was truly a divine appointment. Before coming into your office I was in pretty bad shape. I only had a bowel movement once a month, I had unbearable abdominal pain, and making love to my husband was painful, airy, and unfulfilling. I had been to several doctors and none of them were able to help me or cared that I was experiencing this; I was very frustrated. I began to accept things the way they were, I actually began to think it was all in just in my mind.

However; when I came to see you I was amazed that there was a doctor that could actually care and listen. You confirmed all the issues that I was having and ensured me that I was not crazy and that I did not have to live in pain any more. Since you performed the pelvic floor surgery on me my life has not been the same! I can actually have a bowel movement every day, the abdominal pain has ceased, and words can not even describe how awesome my love life is now, my husband says thank you and if he was rich he would buy you a Rolex (smile). Thank you for caring about the health of women, and having a great staff!! Keep up the wonderful work. I am telling all of my friends about you.

Saved by Grace,
